CME INFORMATION

CONFERENCE OBJECTIVES

This program is designed for the practicing surgeon. It is meant to provide an update in the various disciplines of surgery with application to daily practice, and to enhance the knowledge of the participant in these areas. The program is intended to meet the needs of surgeons in clinical practice for up-to-date information on the latest techniques in general and specialty surgical areas and to provide a means for surgical students and researchers to report the results of their research.

DISCLOSURE INFORMATION

In accordance with the ACCME Accreditation Criteria, the American College of Surgeons must ensure that anyone in a position to control the content of the educational activity (planners and speakers/authors/discussants/moderators) has disclosed all financial relationships with any ineligible company held in the last 24 months. Please note that first authors were required to collect and submit disclosure information on behalf all other authors/contributors, if applicable.
